### Part (i): Description of State Accountability System

Part (i)(I) the minimum number of students that the State determines are necessary to be included in each of the subgroups of students for use in the accountability system. The Texas accountability minimum size criteria are 10 assessments or students for the all student group or any subgroup for every indicator.

Part (i)(II)

			State ESS	A Goals (I	Middle	Schools)

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)

b. Other Academic Indicator for Non-High Schools: STAAR Growth Status

С.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details. Chapter 4-2023 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for Targeted Support and Improvement (TSI). TSI identifies both Title I and non-Title I campuses. Data from 2019, 2022, and 2023 are considered consecutive years for 2023 TSI identification. See the accountability manual for details. Chapter 10-2023 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by schooltype - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2022-2023 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a four or six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status.

#### Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2022-23 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

- Indicates there are no students in the group.

\* Indicates results are masked due to small numbers to protect student confidentiality.

### Part (v): School Quality or Student Success (SQSS)

This section provides information on the other indicators of school quality or student success, which is college, career and military readiness (CCMR) for high schools and average performance rate of the three STAAR performance levels of all students, regardless of whether they were in the accountability subset, for elementary and secondary schools without a graduation rate. (CWD: children with disability; EL: English learner)

Teacher Who Are Not Teaching in the Subject or Field for Which the Teacher is Certified or Licensed	2.7	9.9%

- Indicates there are no data available in the group.

#### Part (x): Per-pupil Expenditure

This section provides information on the per-pupil expenditures of federal, state, and local funds, including actual personnel expenditures and actual non-personnel expenditures, disaggregated by source of funds, for each school district and campus for the preceding fiscal year.

To be updated by June 30th, 2024.

#### Part (xi): STAAR Alternate 2 Participation

This section provides information on the number and percentage of students with the most significant cognitive disabilities who take STAAR Alternate 2, by grade and subject for the 2022-23 school year.

	State				
				Campus	
				Number
