

Families-First Expanded School Hours

We understand the diverse families facing unique, often unreliable, engaging, and fun before- and after-school care for their children, and we are going to help all of our families. AISD will meet the need of all families of all socio-economic background by extending the school hours from 6 a.m. to 6:30 p.m. across the entire district, ensuring all students have safe, engaging, and reliable care before and after school.

Serving Students

Students districtwide will experience the benefits of extended hours for a safe and engaging place to spend time before and after the school day. Families with varying work or transportation schedules will be able to benefit from this program at every school.

Preparing Our Kids To Succeed By

- providing a safe, fun, and engaging environment for all students.
- providing a safe, fun, and engaging environment for all students.
