

OUT OF DPE Public Education Information Management System
 IMS Fall 2009 records and Fall 2010 records to estimate the number of
 students who left the district. Students who were not enrolled at any AISD campus
 in the snapshot date were assumed to have left the district.

Key Findings

x 12% of the 2009–2010 AISD kindergarten students (n = 925) left AISD for the 2010–2011 year.

x 16% of kindergarten students who were enrolled at an elementary school in the LBJ vertical team did not enroll in AISD during the 2010–2011 year (i.e., 116 left the district).

1

2009–2010 KINDERGARTEN STUDENTS' ENROLLMENT IN 2010–2011 BY VERTICAL TEAM

Of the 7,683 kindergarten students who enrolled in AISD in Fall 2009, 88% (n = 6,759) were enrolled at an AISD campus in Fall 2010. The rates varied by vertical team (Table 1). The elementary schools in the LBJ vertical team had the highest percentage of kindergarten students leaving the district (16%). The elementary schools in the LBJ vertical team also had the second highest percentage of pre K students leaving the district. The elementary schools in the Bowie vertical team had the lowest percentage of kindergarten students leaving the district (8%).

Table 1. 2009–2010 Prekindergarten (pre K) Students' Enrollment in 2010–2011, by Vertical Team

Vertical team	Number of 2009–2010 pre K students	Number of pre K students who left the district	% students who did not enroll in AISD in Fall 2010	Rank by % of students who did not enroll in AISD in Fall 2010
LBJ Anderson	721	116	16%	1
