

## 2014–2015

AISD students' participation in ACT testing continued to increase in 2015 (N = 1,601), compared with participation in the prior year (N=1,499) ACT results were mixed between campuses.

### Table 1

The ACT average scores ranged between high schools in each subject and overall.

### Figure 1

The percentage of college ready students in all four ACT subject areas varied between AISD high schools and in comparison with district, state, and national percentages.

This report describes ACT test campus-level results for Austin Independent School District (AISD) students in the 2014–2015 school year. The ACT is a national college admissions examination developed and administered by ACT, Inc. that consists of the following subject area tests: English, mathematics (math), reading, and scientific reasoning.
