

2005-2006 AISD Parent Survey Results

Akins High School

The following report contains the results of the 2005-2006 AISD Parent Survey for your campus and all AISD schools at your level. The first section of this report provides a comparison of the campus demographics and the demographics reported by parents who responded to the survey from your campus. The next section describes the percentages of parents selecting specific responses for each survey item, and the final section indicates the actual number of parents who selected each response option. Campus survey results should be examined for areas of strength and opportunities for improvement. Results for all AISD schools at your level and results for your campus from 2004-2005 are presented to provide a reference for comparison. Please note that due to differences in response rates by campus, ranging from 0.4% to 22.9%, district level results are more influenced by some campuses than others.
