

2011 2012 AISD Parent Survey Bailey Middle School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and various school based opportunities parents would like for their children. The following report contains the results of the 2011 2012 Parent Survey for Austin Independent School District (AISD) for Bailey Middle School. The district report can be found at: [http://www.austinisd.org/dre/district campus surveys#parent](http://www.austinisd.org/dre/district%20campus%20surveys#parent).

New Federal Standards for Collecting and Reporting Ethnicity and Race

Starting in 2010 2011, districts were required to report race and ethnicity using revised standards. The new standards require a person to first select his/her ethnicity (Hispanic/Latino or non Hispanic/Latino) and one or more of five race values. Since more than one race value may be chosen, percentages might not add to 100.

Students' grade and ethnicity were self reported. Population data reflect enrollment as of the October 2011 PEIMS snapshot date.
