

2011-2012 AISD Parent Survey Baldwin Elementary School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and various school-based opportunities parents would like for their children. The following report contains the results of the 2011-2012 Parent Survey for Austin

Item Results

Communication

I receive information from school staff about my child's...

academic performance.

behavior.

attendance.

I receive information about my child that is...

in my preferred language.

in my preferred method of communication (e.g., e-mail, phone, letter,
face-to-face meeting).
