

## **2009-2010 AISD Student Climate Survey**

Research indicates that school climate can be either a positive influence on the learning environment or a significant barrier to learning. In AISD, schools that performed better on TAKS also had higher student climate ratings (Schmitt & Carney, 2008). These survey results provide campuses with feedback about how students feel about their school's educational

---

In Spring 2010, 187 students returned surveys for Barton Hills, representing 94% of eligible students from Barton Hills (compared to the district Elementary School response rate, 87%). The table below shows the total number and percentage of students surveyed from each eligible grade at Barton Hills in 2009-2010.

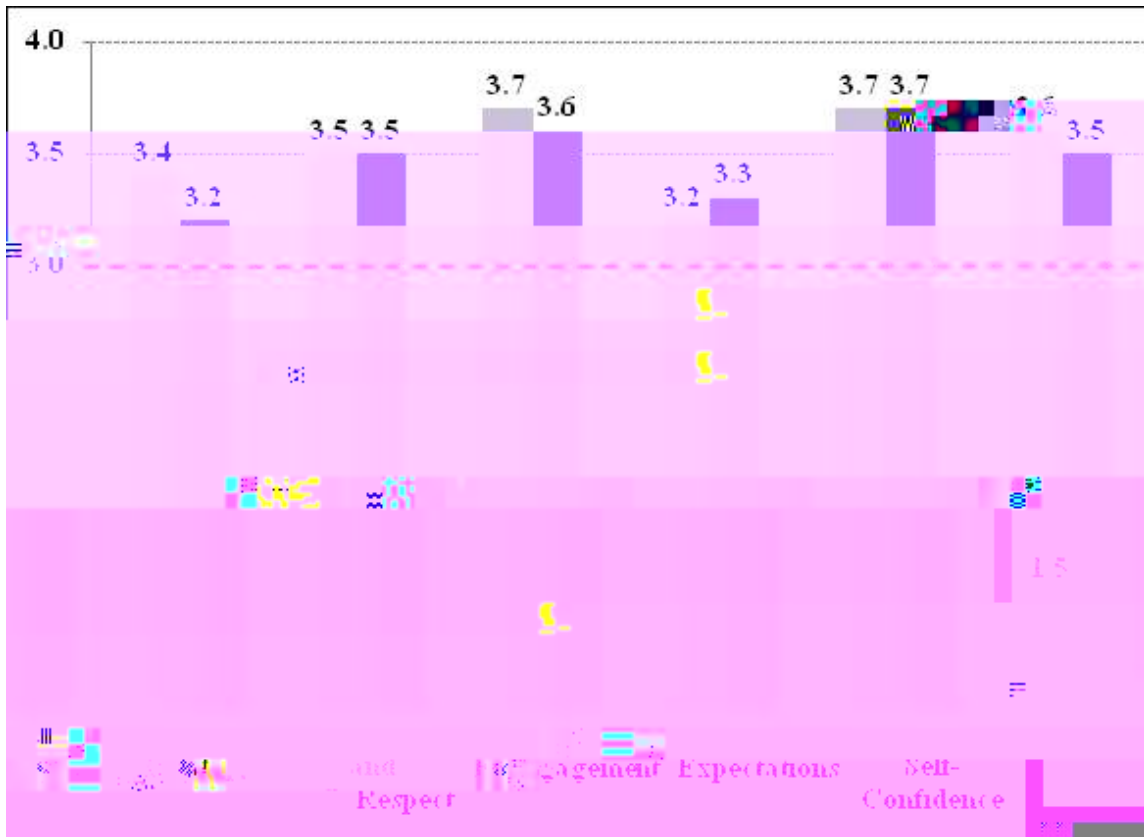

Table 1. Response Rate by Grade, 2009-2010

Barton Hills		
Grade	Population	Response Rate
3rd	49	98%
4th	72	99%
5th	50	90%
6th	28	82%
<b>Total</b>	199	94%

Survey results for Barton Hills for the 2009-2010 school year are presented on the next page. Please note the green and red text boxes that highlight specific areas in which Barton Hills excels, as well as areas in which Barton Hills can improve. The appendix provides more detailed information regarding Barton Hills's student climate survey results from 2007-2008 through 2009-2010. Please review the individual items on each subscale with particular attention to how Barton Hills's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are flagged with + or - symbols. Please share the results of this report with the Barton Hills Community Council.

The graph below depicts Barton Hills’s average student climate survey ratings, compared with average ratings for students across all Elementary Schools in 2009-2010. Scores over 3.0 are desirable, as indicated by the red dashed line. The first step in improving these characteristics is to examine the item-level scores for each area (see Appendix).

Student Climate Survey Subscales for Barton Hills and all Elementary Schools, 2009-2010

Note. The light purple bars represent 2009-2010 data for Barton Hills and the dark purple bars represent 2009-2010 data for all Elementary Schools.

**Barton Hills’s highest subscale score on the 2009-2010 Student Climate Survey was for Teacher Expectations, a new subscale in 2009-2010 that measures the expectations students perceive from their teachers. It is believed that Teacher Expectations are associated with academic achievement. Please think about what your school does to foster high expectations, and share your strategies with others.**

**Barton Hills’s lowest subscale score on the 2009-2010 Student Climate survey was for Student Engagement. This subscale measures the extent to which students enjoy their schoolwork and learning. It is believed that Student Engagement relates to academic achievement. For more information on way7( )TJET..026 ce 2wor ce 2 visitbelieved**

**APPENDIX**

Behavioral Environment	Barton Hills			All Elementary Schools
	2007-08	2008-09	2009-10
