

PARENT SURVEY RESULTS 2008-2009

BRENTWOOD ELEMENTARY SCHOOL

Survey Report

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with higher student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback about how parents feel about their treatment by school staff, the school's educational environment, and their own involvement in the school. The following report contains the results of the 2008-2009 AISD Parent Survey for Brentwood, and longitudinal data are provided where applicable. In addition, averages are provided for all AISD Elementary schools. Table 1 provides a summary of respondents for Brentwood. Parents who respond to this survey tend to be representative of the AISD student population in terms of ethnicity and grade level; data for the parents who responded for Brentwood can be found in Tables 2 and 3.
