AISD STAFF CLIMATE SURVEY RESULTS**

COOK ELEMENTARY SCHOOL

A healthy school climate is characterized by positive relationships among students, all campus staff, and the community. School climate is a key factor in several important outcomes such as student achievement, reduced violence, higher morale, and faculty trust (Hoy, Smith, & Sweetland, 2002). More specifically, research in Austin ISD indicates that staff climate survey results are related to student TAKS performance in b fh fh nd freaitg cho

Collegial Leadership. This subscale consists of 7 items that address the degree to which the principal meets the social needs of the faculty as well as works toward achieving the goals of the school. Collegial leadership involves treating teachers and staff as professional colleagues, with openness, egalitarianism, and friendliness, but at the same time setting clear expectations and standards for performance.

Achievement Press. This subscale consists of 8 items that describe the extent to which the school has set high but achievable academic standards and goals. Achievement press is marked by students who persist, strive to achieve, and are respected by each other and teachers for their academic successes. In addition, this subscale measures the extent to which parents, teachers, and principals exert pressure for high standards and school improvement.

Frequency of Selected Student Behaviors. This subscale measures the frequency of selected undesirable student behaviors. The items were rated on a scale of 0 (*Never Happens*) to 4 (*Happens Daily*). Average scores for each item are shown in the table that follows.

Safety. The frequency and prevalence of undesirable student behaviors have been combined to form a score that indicates the overall staff perception of student behaviors. Scores have been converted to range from 1 (least desirable) to 4 (most desirable).

Positive Student Behaviors and Staff Reinforcement of Positive Student Behaviors.

This subscale measures the frequency and prevalence of positive student behavior and staff reinforcement of positive behaviors. Average scores for each item are shown in the table below.

The first step in improving campus climate is to look at your school's score for each of the climate subscales (shown in Table 2 on page 2). These will help you to identify areas where
