

LBJ Creative Campus Profile

Results for 2016-2017 School Year: Arts Emerging-2

Based on the data provided in the Arts Inventory by the campus principal in the spring of 2017, LBJ was found to be an **Arts Emerging-2** campus. Inventory responses and the associated Campus Creative scores are listed below. More information about how the Creative Campus score was calculated can be found on the following page.

Arts Richness Score:

What Does it Mean to be an Arts Emerging-2 Campus?

Though your campus doesn't yet meet the full criteria of a Creative Campus, it is on that path since it qualifies as arts emerging. In arts emerging school, many students receive sequential fine arts instruction, less than half of teachers use creative teaching strategies at least once a week, and some community arts partnerships are cultivated both during and after school. To improve, encourage all teachers to attend CLI professional development and implement creative teaching regularly, develop new community arts partnerships in additional grade levels, and communicate more frequently with families about the value of creative learning.

Why does AISD Measure Creative Campus Scores for its campuses?

National research on creative learning shows that students attending arts-rich schools have higher levels of motivation and better academic and social success (Dwyer, 2011). In addition, prior research into the Creative Learning Initiative (CLI) in AISD indicated that the implementation of creative teaching strategies is related to increased levels of student engagement, attendance, greater academic achievement, and social emotional skills (Christian, Hasty, & Wang, 2017). Current AISD findings indicate that 36% of our secondary schools are already Creative Campuses (Figure 1). Because the arts benefit students academically and creatively, AISD, in collaboration with the City of Austin and MINDPOP, is strategically working towards achieving Creative Campuses for all students by 2022-2023 (MINDPOP, 2012).
