

2009-2010 AISD Campus Staff Climate Survey

Linder Elementary School

A healthy school climate is characterized by positive relationships among students, all campus staff, and the community. School climate is a key factor in several important outcomes including student achievement, reduced violence, higher morale, and faculty trust (Hoy, Smith, & Sweetland, 2002). More specifically, research in AISD indicates that staff climate survey results are related to student Texas Assessment of Knowledge and Skills (TAKS) performance in both math and reading (Bush-Richards, Cornetto, & Schmitt, 2008; Schmitt, 2006). The figure below represents how campus climate can facilitate student academic growth.

The image below displays factors that are known to be related to student academic growth. In this report, we focus on Staff Climate (circled in red), which has been measured with seven survey subscales: Teacher Support, Community Engagement, Collegial Leadership, Professional Teacher Behavior, Achievement Press, General Climate and Data Vision.

The graphs below depict Linder's staff climate ratings over time, as well staff climate ratings across all Elementary Schools in 2009-10. Scores over 3.0 are desirable, as indicated by the red dashed line in the graphs below. The first step in improving campus climate is to examine the score for each area (Figure 2).

For 2009-10, Linder staff rated **Professional Teacher Behavior** the highest of all climate areas. Alternatively, Linder staff rated **Community Engagement** the lowest of all climate areas. In the appendix, you will find the individual items that make up **Professional Teacher Behavior** and **Community Engagement**. Examine these items and consider possible areas for campus improvement. Make note of any item with an arrow, which indicates an average rating that is meaningfully higher or lower than that of the previous year. Discuss these areas of strength and challenge with staff, and note the ways in which initiatives on campus have addressed or could address these issues during the current or next school year.
