

Research indicates that school climate can either be a positive influence on students' learning environment, or can serve as a significant barrier to students' learning. Researchers have documented that positive ratings of student climate contribute to factors that help high economically disadvantaged schools "beat the odds" (Voight, Austin & Hanson, 2013). Indeed, students at high-performing AISD schools with high levels of economic disadvantage had more positive ratings of behavioral environment and adult fairness and respect in Spring 2013 than did students at lower performing AISD schools with similar levels of economic disadvantage (Lamb, 2014). The following tables show the total number of surveys students at Martin completed in 2013-2014 (Table 1), the response rate by grade (Table 2), and the distribution of responses by race/ethnicity compared with the population (Table 3) for students at Martin.

# of surveys returned	465	11,752
# of students	595	16,133
% of students represented	78%	73%

grade	# of students enrolled	# of responses	response rate
6th grade	191	106	55%
7th grade	206	164	80%
8th grade	198	169	85%

Note. Population data reflect enrollment as of the PEIMS snapshot date in October 2013 whereas students' grade level and ethnicity were self-reported on the survey. The "ethnicity/race" designations allow students to first choose their ethnicity (Hispanic/Latino or non-Hispanic/Latino) and then choose one or more of five race values.

Ethnicity	% of population	% of responses
Hispanic/Latino	86%	85%
Race		
American Indian/Alaskan Native	29%	11%
Asian	1%	2%
Black/African American	14%	16%
Native Hawaiian/Other Pacific Islander	0%	3%
White	60%	21%

Figure 1 depicts Martin's average student climate survey ratings for 2013-2014, compared with average ratings across all Middle Schools in 2013-2014. Scores over 3.0 are desirable, as indicated by the green line. Please note the green and red text boxes that highlight the specific area in which Martin most excels, as well as the area in which Martin can improve most.

Figure 1. Student Climate Survey Subscales for Martin and all Middle Schools, 2013-2014

Martin's highest score on the 2013-2014 Student Climate Survey was for teacher expectations, which measures students' perceptions of their teachers' expectations. Please think about what your campus does to foster high expectations, and share your strategies with others.

Martin's lowest score on the 2013-2014 Student Climate Survey was for behavioral environment, which measures the extent to which students respect each other, follow the rules, and feel safe at your campus. Higher ratings of behavioral environment have been associated with academic achievement. For resources on how to improve your campus' behavioral environment, please visit AISD's Social Emotional Learning (SEL) website: <http://www.austinisd.org/academics/sel> and the district's Respect for All website: <http://www.austinisd.org/respectforall>

The following pages contain more detailed information regarding Martin's student climate results from 2011-2012 to 2013-2014. Please review the individual items on each subscale with particular attention to how Martin's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are noted with up or down arrows. Please share the results of this report with all campus staff and your Campus Advisory Council to inform campus improvement planning. Appendix B contains a table with the percentage of students responding favorably to each item.

9. I like to come to school.	2.9	2.8	2.9	2.8
17. I enjoy doing my schoolwork.	2.7	2.6	2.7	2.6
24. My homework helps me learn the things I need to know.	3.0	3.0	3.0	3.0
25. My schoolwork makes me think about things in new ways.	3.0	2.9	2.9	2.9
26. I have fun learning in my classes.	2.8	2.8	2.9	2.8
28. My teachers connect what I am doing to my life outside the classroom.	2.5	2.5	2.7	2.6
37. I receive recognition and praise for doing good work.	n/a	3.0	3.0	3.0
Student engagement average	n/a	2.8	2.9	2.8

Note.Response options ranged from 1 = never to 4 = a lot of the time. It is desirable to have a response of at least 3.0.

16. I can do even the hardest schoolwork if I try.	3.3	3.1	3.1	3.3
18. I am/was well prepared to take the TAKS/STAAR.	2.9	3.2	3.1	3.2
19. I try hard to do my best work.	3.4	3.3	3.3	3.5
22. I feel successful in my schoolwork.	3.1	3.0	3.1	3.2
23. I can reach the goals I set for myself.	3.4	3.3	3.3	3.3
Academic self-confidence average	3.2	3.2	3.2	3.3

Note.Response options ranged from 1 = never to 4 = a lot of the time. It is desirable to have a response of at least 3.0.

12. My teachers believe I can learn.	3.5	3.5	3.5	3.6
20. My teachers believe I can do well in school.	3.5	3.4	3.4	3.6
33. My teachers expect me to think hard about things we read.*	3.2	3.2	3.2	3.4
34. My teachers expect everybody to work hard.*	3.2	3.3	3.4	3.6
35. My teachers expect my best effort.*	3.4	3.5	3.5	3.6
Teacher expectations average	3.4	3.3	3.4	3.5

Note.These items are based on the **Challenge** subscale from the Tripod survey and response options have changed to be on the AISD scale. It is desirable to have a response of at least 3.0. One item was dropped from this subscale in 2014 and items #12 and #20 have been moved from the Adult Fairness and Respect subscale to the Teacher Expectations subscale based on results generated from factor analyses and reliability analyses. Average subscale scores reported here are different than those reported in prior reports.

* These items have been reworded from the 2012-2013 survey. A list of reworded items is located Appendix A.

% Yes	58%	57%	61%	75%
% No	4%	5%	5%	3%
% Maybe	39%	38%	34%	22%
