

OVERVIEW

Research indicates that school climate can be either a positive influence on the learning environment or a

This report summarizes the responses from your school's AISD Student Climate Survey over the last three years, and provides the current year results for all AISD schools at your level. The climate survey measures three dimensions of a school's overall climate, called Behavioral Environment, Adult/Student Interactions, and Academic Environment. Each of these three dimensions is made up of several similar concepts that are measured with groups of related items, or subscales.

<i>Dimension and Subscale</i>	O Henry 03-04	O Henry 04-05	O Henry 05-06	All Middle Schools 05-06
Behavioral Environment	2.52	2.52	2.60	2.55

First, examine your campus scores for changes over time. Green upward-facing arrows indicate a statistically meaningful increase in average score from the previous year, red downward-facing arrows indicate a statistically meaningful decrease from the previous year. It is particularly important to examine the individual item responses on the following pages for any subscales with meaningful changes from year to year. If you do not see any arrows, changes in your school's dimension or subscale scores may not represent meaningful differences from year to year.

If the average score for your campus has increased in a particular area, please consider campus policies and practices that may be responsible for these improvements. Conversely, if the average score has decreased, please examine any changes on your campus that may account for these declines and consider possible strategies for improvement. Page 6 contains more information about ways to improve school climate.

Scores for your campus this year should be examined relative to the scores for all schools at your level. If your school's average score for a dimension or subscale is lower than the average for all schools at your level, individual item responses will help you to identify areas for targeted improvement efforts. Alternatively, if your school's average score for this year is higher than the average for all schools at your level, individual item responses will provide more detailed information regarding specific areas of strength to help you identify successful strategies.

The following pages contain response averages for each survey item, grouped by subscale. More detailed information regarding the percentage of students selecting each response option may be found in the Appendix at the end of this report.

Behavioral Expectations:

Three items comprise this subscale, which measures the clarity and enforcement of school rules and the consequences for rule violations. Average scores for each item and for the subscale are reflected in the table below.

Average Response for Behavioral Expectations Items

<i>Behavioral Expectations Items</i>	O Henry	O Henry	O Henry	All Middle Schools
	03-04	04-05	05-06	05-06
9. Everyone knows what the school rules are.	2.41	2.48	2.54	2.63
12. The school rules are strictly enforced.	2.82	2.87	2.90	2.92
13. If a school rule is broken, students know what kind of punishment will follow.	2.53	2.58	2.65	2.75
Behavioral Expectations Average	2.58	2.65	2.69	2.76

School Safety and Cleanliness:

The three items on this subscale indicate the degree to which students feel safe at school and perceive the school as clean. Average scores for each item and for the subscale are reflected in the table below.

ADULT/STUDENT INTERACTIONS

Teacher Support and Engagement:

This subscale consists of seven items that assess the extent to which teachers support students with academic issues and personal problems, and the level of enthusiasm that teachers display regarding their teaching. Average scores for each item and for the subscale are reflected in the table below.

Average Response for Teacher Support and Engagement Items

<i>Teacher Support and Engagement Items</i>	O Henry	O Henry	O Henry	All Middle Schools
