

Research indicates that school climate can either be a positive influence on students' learning environment, or can serve as a significant barrier to students' learning. Researchers have documented that positive ratings of student climate contribute to factors that help high economically disadvantaged schools "beat the odds" (Voight, Austin & Hanson, 2013). Indeed, students at high-performing AISD schools with high levels of economic disadvantage had more positive ratings of behavioral environment and adult fairness and respect in Spring 2013 than did students at lower performing AISD schools with similar levels of economic disadvantage (Lamb, 2014). The following tables show the total number of surveys students at Paredes completed in 2013-2014 (Table 1), the response rate by grade (Table 2), and the distribution of responses by race/ethnicity compared with the population (Table 3) for students at Paredes.

| | | |
|---------------------------|-------|--------|
| # of surveys returned | 970 | 11,752 |
| # of students | 1,092 | 16,133 |
| % of students represented | 89% | 73% |

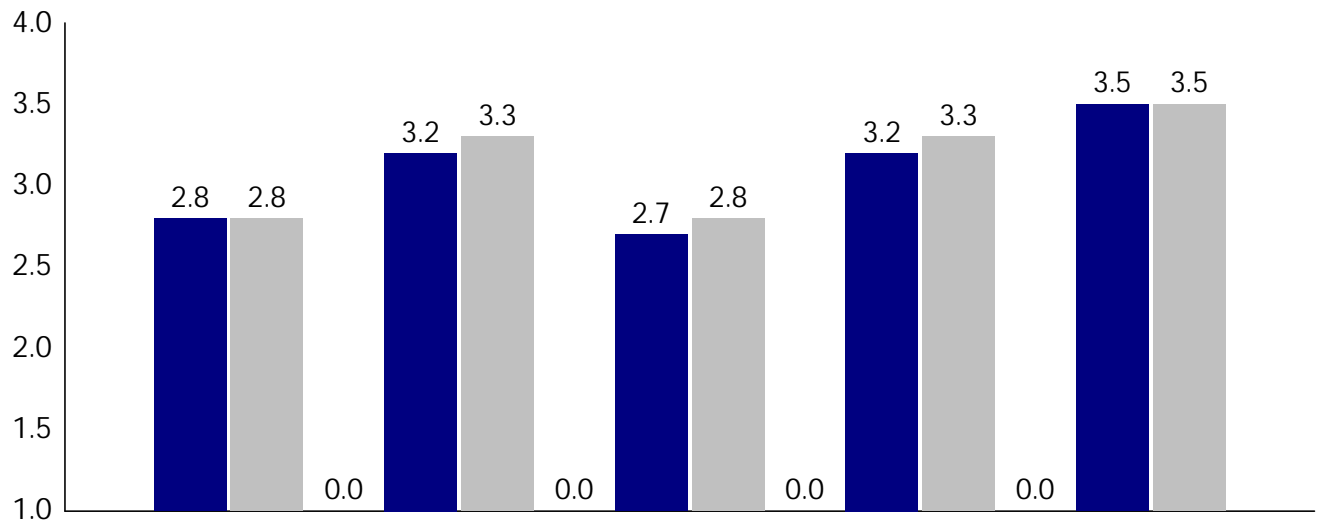

| grade | # of students enrolled | # of responses | response rate |
|-----------|------------------------|----------------|---------------|
| 6th grade | 345 | 319 | 92% |
| 7th grade | 384 | 312 | 81% |
| 8th grade | 363 | 297 | 82% |

Note. Population data reflect enrollment as of the PEIMS snapshot date in October 2013 whereas students' grade level and ethnicity were self-reported on the survey. The "ethnicity/race" designations allow students to first choose their ethnicity (Hispanic/Latino or non-Hispanic/Latino) and then choose one or more of five race values.

| Ethnicity | % of population | % of responses |
|----------------------------------------|-----------------|----------------|
| Hispanic/Latino | 77% | 76% |
| Race | | |
| American Indian/Alaskan Native | 26% | 10% |
| Asian | 4% | 6% |
| Black/African American | 12% | 15% |
| Native Hawaiian/Other Pacific Islander | 1% | 4% |
| White | 62% | 33% |
