

2009-2010 AISD Student Climate Survey Pleasant Hill Elementary School

Research indicates that school climate can be either a positive influence on the learning environment or a significant barrier to learning. In AISD, schools that performed better on TAKS also had higher student climate ratings (Schmitt & Carney, 2008). These survey results provide campuses with feedback about how students feel about their school’s educational environment. Longitudinal data are provided, where applicable.

The image below displays factors that are known to be related to student academic growth. In this report, we focus on the role of school climate for students (circled in red), which has been measured with six survey subscales: academic self-confidence, adult fairness & respect, teacher expectations, teacher support, student engagement, and behavioral environment.

In Spring 2010, 220 students returned surveys for Pleasant Hill, representing 89% of eligible students from Pleasant Hill (compared to the district Elementary School response rate, 87%). The table below shows the total number and percentage of students surveyed from each eligible grade at Pleasant Hill in 2009-2010.

Table 1. Response Rate by Grade, 2009-2010

Pleasant Hill		
Grade	Population	Response Rate
3rd	91	93%
4th	92	90%
5th	63	83%
6th	n/a	n/a
Total	246	89%

Survey results for Pleasant Hill for the 2009-2010 school year are presented on the next page. Please note the green and red text boxes that highlight specific areas in which Pleasant Hill excels, as well as areas in which Pleasant Hill can improve. The appendix provides more detailed information regarding Pleasant Hill's student climate survey results from 2007-2008 through 2009-2010. Please review the individual items on each subscale with particular attention to how Pleasant Hill's average ratings have changed or remained consistent over time. Please note that some subscales have changed from previous years, making longitudinal comparisons inappropriate for some items and subscales. For items and subscales where longitudinal data are available, statistically meaningful changes are flagged with + or - symbols. Please share the results of this report with all campus staff and your Campus Advisory Council to inform campus improvement planning.

The graph below depicts Pleasant Hill's average student climate survey ratings, compared with average ratings for students across all Elementary Schools in 2009-2010. Scores over 3.0 are desirable, as indicated by the red dashed line. The first step in improving these characteristics is to examine the item-level scores for each area (see Appendix).

Pleasant Hill's lowest subscale score on the 2009-2010 Student Climate survey was for Behavioral Environment, which measures the extent to which students report feeling safe and respected at Pleasant Hill. Higher ratings of Behavioral Environment have been associated with academic achievement. For resources on how to improve your campus' Behavioral Environment, please visit AISD's Positive Behavior Support (PBS) website:

1. My classmates show respect to each other.	2.9
2. My classmates show respect to other students who are different.	3.1
3. I am happy with the way mTf12 0 0 12 353.7148 602	3.0
Nt.	2.8
	3.5
	3.4
	3.1

Student Engagement	Pleasant Hill 2009-10	All Elementary Schools
9. I like to come to school.	n/a	3.2
21. I enjoy doing my schoolwork.	3.3	3.1
30. My homework helps me learn things I need to know.	3.6	3.5
33. My schoolwork makes me think about things in new ways.	3.4	3.3
35. I have fun learning in my classes.	3.5	3.3
38. My teachers connect what I am doing to my life outside the classroom.	3.5	3.3
Student Engagement average	n/a	3.3

Note: Response options range from 1 (strongly disagree) to 4 (strongly agree). It is desirable to have a response of at least 3.0. With the addition of item 9 in 2009-2010, subscale comparisons across years are no longer available.
