

2012 AISD Parent Survey Summitt Elementary School

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with a high level of student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback on how parents feel about their treatment by school staff, the school's educational environment, and various school-based opportunities parents would like for their children. The following report contains the results of the 2012 Parent Survey for Austin Independent School District (AISD) for Summitt Elementary School. The district report can be found at: <http://www.austinisd.org/dre/districtcampusesurveys#parent>.
