

PARENT SURVEY RESULTS 2008-2009

SUNSET VALLEY ELEMENTARY SCHOOL

Survey Report

Strong relationships among staff, students, and parents are critical to student success. In particular, parent involvement in education is associated with higher student achievement (for a meta-analysis see Fan & Chen, 2001). These survey results provide campuses with feedback about how parents feel about their treatment by school staff, the school's educational environment, and their own involvement in the school. The following report contains the results of the 2008-2009 AISD Parent Survey for Sunset Valley, and longitudinal data are provided where applicable. In addition, averages are provided for all AISD Elementary schools. Table 1 provides a summary of respondents for Sunset Valley. Parents who respond to this survey tend to be representative of the AISD student population in terms of ethnicity and grade level; data for the parents who responded for Sunset Valley can be found in Tables 2 and 3.

RESULTS FOR SUNSET VALLEY

Survey results for Sunset Valley for the past 3 years are summarized here, along with 2008-2009 results for all AISD elementary schools. To indicate which changes are most meaningful from year to year, statistically significant changes are flagged with up or down arrows (↑ ↓).⁷⁰

The survey questions were grouped by topic into seven subscales. Table 4 on the following page provides an overview of the results by subscale, and subsequent tables provide the results for every question subscale. Parents responded to each statement by indicating their level agreement on a four-point scale ranging from “Strongly Disagree” to “Strongly Agree,” with the option of indicating “Don’t know/NA” or of skipping any item. It is desirable to have an average of **3.0 or higher** for each item and subscale, indicated in **8** .

Staff should discuss strategies to continue supporting the positive changes, and should develop strategies to address any undesirable changes that may have occurred. Because parental perceptions of treatment by school personnel are based on interactions with a variety of school staff, representatives from all areas should be included in discussions regarding school planning and improvement processes. We recommend that you make this report available to all campus staff and provide an opportunity for staff to discuss ideas for improving relationships with parents. Also, plan to meet with your Parent Support Specialist (if applicable) to discuss these results and their implications for future planning. In addition, you may wish to contact Claudia Santamaria, Parent Program Coordinator (414.0112) for assistance with strategies to improve your school's relationships with parents.
