

AISD Student Climate Survey: Results for Spring 2013 Through 2016

WIDEN

Evidence indicates that positive school climate fosters a positive learning environment for students. Also, researchers have documented that a positive school climate helps students from economically disadvantaged schools to beat the odds (Voight, Austin, & Hanson, 2013). This report displays school climate ratings for the past four years, along with the 2016 ratings for all AISD schools at this level. New items were added in 2016 to assess students' social and emotional (SEL) skills.

Survey Results

For each item in this report, the number displayed represents the percentage of students who agreed the statement is true a lot of the time or sometimes. Arrows indicate statistically meaningful changes from one year to the next. Items marked with * were not asked that year. To access reports from previous years, please visit the Department of Research and Evaluation's (DRE) website.

	2013	2014	2015	2016	All ES 2016
My classmates show respect to each other.	81%	76%	68%
