Results

Coordinated School Health (CSH) Program implementation data were collected from each Austin Independent School District (AISD) campus in Spring 2017. The results indicated that Winn Elementary School received a rating of **Exemplary** for the CSH Program implementation in 2016-2017. Campus results will be reflected in the District's strategic scorecard and the House Bill 5 ratings, i.e., the School District Evaluation of Performance in Community and Student Engagement for wellness and physical education (TEC §46 (C) 39.0545).

CSH Implementation Summary	Score/Rating

The rating scale was based on identified activities that support coordinated school health efforts. There were 19 required and 80 supplemental opportunities for campuses to meet or exceed the AISD CSH Program standards. All campuses submitted enough data to be rated. Winn Elementary School achieved 19 required and 61 supplemental items during the 2016-2017 school year.

One component of the supplemental created was for yearly Fitnessgram improvement. The Fitnessgram measure includes a variety of health-related physical fitness tests that assess aerobic capacity, muscular strength and endurance, flexibility, and body composition. Scores from these tests are compared with healthy fitness zone (HFZ) standards to determine students' overall physical fitness.

AISD campuses are encouraged to use their results to set goals for their Campus Improvement Plan.

⁷⁷ Rating scale: unacceptable – achieved less than the 19 required items; acceptable – achieved all 19 required and 25 or fewer supplemental items; recognized – achieved all 19 required and 26-48 supplemental items; exemplary – achieved all 19 required and 49 or more supplemental items.
