The following report contains the results of the 2005-2006 AISD Parent Survey for your campus and all AISD schools at your level. The first section of this report provides a comparison of the campus demographics and the demographics reported by parents who responded to the survey from your campus. The next section describes the percentages of parents selecting specific responses for each survey item, and the final section indicates the actual number of parents who selected each response option. Campus survey results should be examined for areas of strength and opportunities for improvement. Results for all AISD schools at your level and results for your campus from 2004-2005 are presented to provide a reference for comparison.

USING THE RESULTS OF THE AISD PARENT SURVEY

Each survey item is presented below, followed by a bar graph containing your school's results for two years and this year's results for all campuses at your level. You will be able to identify areas in which your school's results have changed over time, and you will be able to compare the responses of your school's parents to those of parents at your level district-wide.

Please examine your results to determine areas of strength and opportunities for improvement. Areas of strength can be identified by large percentages of parents who "Strongly Agree" or "Agree" with a statement. Opportunities for improvement can be identified by large percentages of parents who "Disagree" or "Strongly Disagree" with a statement. In addition, please look for patterns in which one staff category consistently receives more positive or negative responses than
